Bureaucracies are the Holocausts, genocides, mass murders, ethnic purges and cleansings, the gulags, concentration and mass–extermination camps. They are the death squads and armies, all Wars, armies of useful idiot servants to oppressive tyrants, dictators, governments and despot poster scapegoats of all human history. Without them these fiends could never crawl from the slimy cesspools that spawned them. The fall of civilizations and humanity’s death wish of self–extinction are of their making.

Thugocrats hiding their most horrific crimes against humankind behind scapegoat poster tyrants such as Hitler, Stalin, Mao, Ho, Clinton, ad nauseam, ad infinitum. Without these beasts and excuses justifying self–gain from '*just doing my job, following orders, they made me do it, I have a family to feed, what does it matter they are only animals,*' ad nauseam, genocidal crimes against humanity by all tyrants of human history could never be horrific realities of just another day in humankind’s history without the bureaucrats that orchestrate and carry them out. When I was a child, my parents took me with them to visit a circus. One of its midway star attractions was the freak show. A very popular spectacle was *The Spineless–Boneless Wonder*. Parents would not allow me to visit that attraction because it was too hideous an ogre for one so young as I to see. Wondering since then what I missed – until now; I have met *The Spineless–Boneless Wonder* in every bureaucrat and bureaucracy hiding behind the most hideous, horrific crimes against its kind that makes me wonder if they are human at all. Nothing, born of a woman could imagine and do such things as The Native American and Jewish Holocausts to dehumanized beings of its kind, could it? Only the most horrifying, beast–monster this world has ever known – the bureaucrat and *Spineless–Boneless Wonder* could conceive and carry out the deliberate and systematic destruction of a human race, political, or cultural group to the current degree beyond what the world has never until now ever recognized. In the Native American circumstance, US Government’s final solution to an ethnic ‘vermin’ problem it sent military and civilian armies of black & white fine christians and bounty scalp hunters to hunt the red skinned taxon to brink of extinction, in the longest, bloodiest human genocide in human history, before a spark of sanity stopped it from completion. Aforementioned atrocities show us what human madness is capable of doing to its kind; Moreover, intentional atomic bombing civilian cities of Hiroshima and Nagasaki in the wholesale mass murder of unarmed, innocent men, women and babies clearly shows what is at stake for the homo sapiens in its death wish march towards self–extinction. The *Spineless–Boneless Wonder*, as my parents said, when I was a child, truly was far too hideous a demon–freak for me to behold remaining decades later just as inconceivable now and forevermore. I found the spineless, boneless wonder. The US Dept. of Veterans Affairs is one of Amerikas hideous monsters. WW2 did not defeat the Nazi; the cult immigrated to USA and set up corporations as VA & BIA continuing their monstrous deeds. Only that government agency and Amerika could stoop so low profiteering from veteran suffering and VA caused veteran suicide epidemic.
